

VISUAL 5.1 ▲ Warm-Up

On graph paper supplied by your teacher do the following:

1. Draw the first quadrant of a coordinate plane, labeling the x axis from 0 to 15 and the y axis from 0 to 15.
2. Draw the lines $y = (\frac{3}{8})x$; $y = -1.5x + 15$; $y = 3$
3. Shade the solution to the following inequalities and find the area of the shaded region.
The inequalities are: $y \leq -1.5x + 15$; $y \geq 3$; $x \geq 0$
4. Shade the solution to the following inequalities and find the area of the shaded region.
The inequalities are: $y \geq (\frac{3}{8})x$; $y \leq 3$; $x \geq 0$
5. Shade the solution to the following inequalities and find the area of the shaded region.
The inequalities are: $y \geq (\frac{3}{8})x$; $x \geq 0$; $y \leq -1.5x + 15$
